

INDIGO OG-2110-BIDI4-GATEWAY • SMPTE ST 2110 BI-DIRECTIONAL 4 CHANNEL GATEWAY

INDIGO
SERIES

The COBALT DIGITAL INDIGO OG-2110-BIDI4-GATEWAY has native SMPTE ST 2110 support in an openGear® format card with dual 25G Ethernet interfaces for ST 2022-7 support.

The INDIGO OG-2110-BIDI4-GATEWAY is a bi-directional quad channel native ST 2110 interface to SDI I/O.

The transmit and receive paths of the gateway can operate simultaneously.

INDIGO OG-2110-BIDI4-GATEWAY also includes support for ST 2022-7 seamless redundancy switching, as well as IS-04/IS-05 NMOS for automatic discovery and configuration.

The INDIGO OG-2110-BIDI4-Gateway creates a powerful On and Off ramp to and from IP / SDI

Features

Highly integrated 4 channel ST 2110 gateway openGear® card.

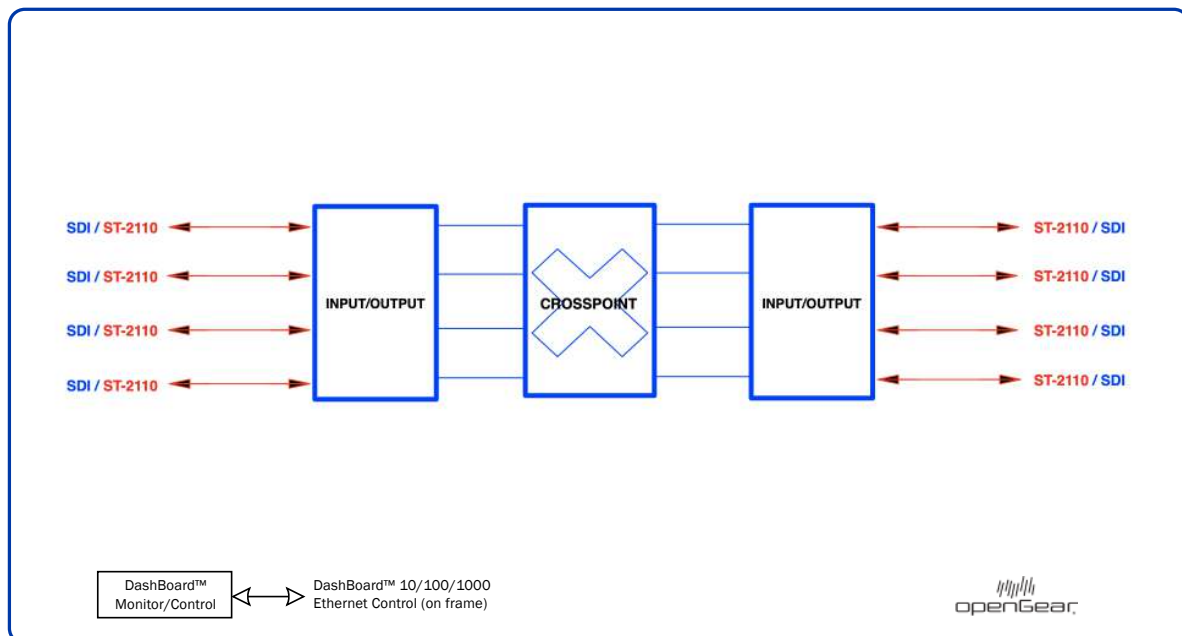

Built-in NMOS support offers straightforward interface to an existing network, with auto-discovery by the network management.

Offers dual 25G Ethernet interfaces for ST 2022-7 support of 4K signals without the need for any type of compression and to support ST 2022-7 seamless redundancy switching for improved network reliability.

High-density, compact openGear® card-based solution, with multiple devices able to be combined into a single frame for multi-channel operation, as well as offering the standard features of redundant hot-swappable power supplies and hot-swappable cards.

Free DashBoard™ software control provides configuration and control of the unit via Ethernet.

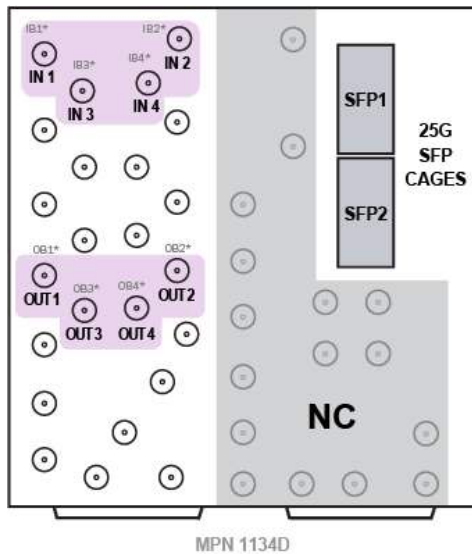

Five-Year warranty
