

## openGear® Cobalt CYAN Series of SDI/Fiber Converters 9440-EO-12G, 9440-EO-3G, 9440-EOOE-12G, 9440-EOOE-3G, 9440-OE-12G, and 9440-OE-3G

You can update your card by downloading the new Update software by going to the Support>Firmware link at [www.cobaltdigital.com](http://www.cobaltdigital.com).

Download “Firmware Update Guide”, which provides simple instructions for downloading the latest firmware for your card onto your computer, and then downloading it to your card through DashBoard™.

Software updates are field-installed without any need to remove the card from its frame.

The table below lists released software versions and describes the corresponding functions additions, improvements, or corrections.

<b>Firmware Version</b>	<b>Description</b>
9440 Firmware Release v1.0.1	<b>Bug Fix</b> <ul style="list-style-type: none"><li>• Device will now lock to and pass MADI audio in both directions.</li></ul>
9440 Firmware Release v1.0.0	<b>Initial Release</b>
